## Discovering the hvgge...

In Danish there is a word called Hygge, its not translatable into one French word alone, it's a feeling created by the right atmosphere. It's a happy feeling of content and joy, its shared with friends or alone, and it's the mother of 100 new words like, hygge-socks, hyggefood, hyggetime and so on.

We have here tried to create the best hygge of all, hyggefood, the Danish traditional food, smørrebrød, salads, pastries and the correct atmosphere of hygge, we truly hope you will enjoy your fairytale stay with us.
